* Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

[•] 4.1 Description of first aid measures

General information:

Take affected persons out into the fresh air.

Immediately remove any clothing soiled by the product.

In case of unconsciousness place patient stably in side position for transportation.

- * After inhalation: Supply fresh air; consult doctor in case of complaints.
- [•] After skin contact:

Immediately wash with water and soap and rinse thoroughly.

- If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: Do not induce vomiting; call for medical help immediately.

⁴.2 Most important symptoms and effects, both acute and delayed

- No further relevant information available.
- ⁴.3 Indication of any immediate medical attention and special treatment needed

If swallowed or in case of vomiting, danger of entering the lungs.

SECTION 5: Firefighting measures

- [•] 5.1 Extinguishing media
- Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture
- Carbon monoxide and carbon dioxide

Under certain fire conditions, traces of other toxic gases cannot be excluded.

Can form explosive gas-air mixtures.

[•] 5.3 Advice for firefighters

[•] Protective equipment:

Wear self-contained respiratory protective device.

Do not inhale explosion gases or combustion gases.

Use fire extinguishing methods suitable to surrounding conditions.

Additional information

Danger of receptacles bursting because of high vapour pressure when heated.

Cool endangered receptacles with water spray.

Collect contaminated fire fighting water separately. It must not enter the sewage system.

(Contd. on page 4)

Revision: 27.05.2020

Trade name: Hama Shredder Cleaner (Aerosol 400 ml (520))

(Contd. of page 3)

SECTION 6: Accidental release measures ⁶ 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources. 6.2 Environmental precautions: Do not allow to penetrate the ground/soil. In case of seepage into the ground inform responsible authorities. Do not allow to enter sewers/ surface or ground water. Inform respective authorities in case of seepage into water course or sewage system. 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Pick up mechanically. Remove from the water surface (e.g. skim or suck off). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. Water, if necessary together with cleansing agents.

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling See Section 8 for information on personal protection equipment. Use only in accordance with intended purpose. Use only in well ventilated areas. Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air). Do not inhale gases / fumes / aerosols. Use only in upstanding position - Liquid gas may escape and may cause freeze / material damage. Heightened danger of slipping when the product is spilled on the floor. The usual precautionary measures are to be adhered to when handling chemicals. [•] Information about fire - and explosion protection: Keep ignition sources away - Do not smoke. Protect from heat. Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Do not spray onto a naked flame or any incandescent material. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use. See section 5. • 7.2 Conditions for safe storage, including any incompatibilities Storage: • Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Observe official regulations on storing packagings with pressurised containers. Storage and clustering must be made according to official regulations. [•] Information about storage in one common storage facility: Storage and clustering must be made according to official regulations. See section 10. [•] Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight.

• Storage class: 2 B

• 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.

[•] 8.1 Control parameters

[•] Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- Additional information: The lists valid during the making were used as basis.
- [•] 8.2 Exposure controls

· Personal protective equipment:

General protective and hygienic measures:

Parameters refer to the product and its intended usage (usage/tradename - point 1 MSDS).

The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Do not inhale gases / fumes / aerosols.

Respiratory protection:

Not necessary if room is well-ventilated. No special precautions are necessary if used correctly. Use suitable respiratory protective device in case of insufficient ventilation. Filter P1

Protection of hands:

No special precautions are necessary if used correctly. If prolonged exposure not avoidable: **DIN/EN 374**

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Solvent resistant gloves

The product is a preparation, no special tests were accomplished.

The recommendation of the glove material is based on the existing information to the ingredients.

[•] Material of gloves

Nitrile rubber, NBR PVA gloves

[•] Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. • Eve protection:

Tightly sealed goggles

SECTION 9: Physical and chemical properties

- [•] 9.1 Information on basic physical and chemical properties
- [•] General Information
- [•] Appearance:
 - Form:

Colour:

Liquid Yellow tint

EU

according to 1907/2006/EC, Article 31 Printing date 27.05.2020

Version number 3

Safety data sheet

Revision: 27.05.2020

Trade name: Hama Shredder Cleaner (Aerosol 400 ml (520))

	(Contd. of page 3	
Odour:	Mineral-oil-like	
Odour threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition		
Melting point/freezing point:	Undetermined.	
Initial boiling point and boiling range	Not applicable, as aerosol.	
Flash point:	<0 °C	
Flammability (solid, gas):	Not applicable.	
Decomposition temperature:	Not determined.	
Auto-ignition temperature:	Product is not selfigniting.	
Explosive properties:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.	
Explosion limits:		
Lower:	Not determined.	
Upper:	Not determined.	
Vapour pressure at 20 °C:	3,500 hPa	
Density at 20 °C:	0.67 g/cm ³	
Relative density	Not determined.	
Vapour density	Not determined.	
Evaporation rate	Not applicable.	
Solubility in / Miscibility with		
water:	Not miscible or difficult to mix.	
Partition coefficient: n-octanol/water:	Not determined.	
Viscosity:		
Dynamic:	Not determined.	
Kinematic:	Not determined.	
Solvent content:		
Organic solvents:	30-<70 %	
VOC (EC)	32.5-<80 %	
Solids content:	0.0 %	
9.2 Other information	No further relevant information available.	

SECTION 10: Stability and reactivity

• 10.1 Reactivity No further relevant information available.

[•] 10.2 Chemical stability

Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications.

¹10.3 Possibility of hazardous reactions No dangerous reactions during intended handling. Forms explosive gas mixture with air.

Danger of receptacles bursting because of high vapour pressure when heated.

. 10.4 Conditions to avoid See Section 7 for information on safe handling.

* 10.5 Incompatible materials: No further relevant information available.

* 10.6 Hazardous decomposition products: See section 5.

(Contd. on page 7)

EU

Printing date 27.05.2020

Version number 3

Revision: 27.05.2020

Trade name: Hama Shredder Cleaner (Aerosol 400 ml (520))

(Contd. of page 6)

* Additional information: See Section 7 for information on safe handling.

SECTION 11: Toxicological information

^{11.1} Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.
- Primary irritant effect:
- * Skin corrosion/irritation Based on available data, the classification criteria are not met.
- [•] Serious eye damage/irritation
- Causes serious eye irritation.
- * Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Other information (about experimental toxicology):

The product is a preparation, for which no experimentally determined toxicity data is available. See section 4.

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

- [•] CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- *Reproductive toxicity* Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- * STOT-repeated exposure Based on available data, the classification criteria are not met.
- [•]Aspiration hazard

May be fatal if swallowed and enters airways.

SECTION 12: Ecological information

¹12.1 Toxicity

Aquatic toxicity:

- Undetermined.
- No further relevant information available.
- * 12.2 Persistence and degradability The single components are biodegradable

¹12.3 Bioaccumulative potential

- Undetermined.
- No further relevant information available.
- * 12.4 Mobility in soil No further relevant information available.
- Additional ecological information:
- [•] General notes:
- At present there are no ecotoxicological assessments.
- Avoid transfer into the environment.

Water hazard class 3 (German Regulation) (Self-assessment): extremely hazardous for water

Do not allow product to reach ground water, water course or sewage system, even in small quantities.

12.5 Results of PBT and vPvB assessment

- *PBT*: Not applicable.
- *vPvB*: Not applicable.
- * 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

[•] 13.1 Waste treatment methods

[•] Recommendation

Disposal must be made according to official regulations. Must not be disposed together with household garbage. Do not allow product to reach sewage system.

(Contd. on page 8)

Revision: 27.05.2020

(Contd. of page 7)

Trade name: Hama Shredder Cleaner (Aerosol 400 ml (520))

[•] Uncleaned packaging:

• *Recommendation:* Disposal must be made according to official regulations.

• *Recommended cleansing agents:* See section 6.

SECTION 14: Transport information	
14.1 UN-Number	
ADR, IMDG, IATA	UN1950
14.2 UN proper shipping name	
ADR ADR	1950 AEROSOLS
IMDG	AEROSOLS
IATA	AEROSOLS, flammable
14.3 Transport hazard class(es)	
ADR	
Class	2 5F Gases.
Label	2.1
IMDG, IATA	
Class	2.1
Label	2.1
14.4 Packing group ADR, IMDG, IATA	Void
14.5 Environmental hazards:	
Marine pollutant:	No
14.6 Special precautions for user	Warning: Gases.
Hazard identification number (Kemler code):	
EMS Number:	F-D.S-U
Stowage Code	SW1 Protected from sources of heat. SW2 Clear of living quarters.
Segregation Code	SG69 For AEROSOLS with a maximum capacity of 1 litre: Segregation as for class 9. Stow "separated from" class except for division 1.4. For AEROSOLS with a capacity above 1 litre: Segregation as for the appropriate subdivision of class 2. For WASTE AEROSOLS:
	Segregation as for the appropriate subdivision of class 2.
14.7 Transport in bulk according to Annex II of Marpol and the IBC Code	<i>f</i> Not applicable.

UN "Model Regulation":	UN 1950 AEROSOLS, 2.1	

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- [•] Directive 2012/18/EU
- * Named dangerous substances ANNEX I None of the ingredients is listed.
- · Seveso category P3a FLAMMABLE AEROSOLS
- [•] Qualifying quantity (tonnes) for the application of lower-tier requirements 150 t
- [•] Qualifying quantity (tonnes) for the application of upper-tier requirements 500 t
- * REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3

[•]National regulations:

• Information about limitation of use: Employment restrictions must be observed.

[•] Other regulations, limitations and prohibitive regulations

75/324/EEC (Aerosols) (EC) No 1272/2008 (CLP) (EC) No 1907/2006 (REACH) (EC) No 1005/2009 (ozone layer) (EU) No 517/2014 (fluorinated greenhouse gases) (EU) No 98/2013 (explosive precursors) (EU) No 649/2012 (PIC) (EC) No 648/2004 (Detergents) (EU) 2019/1021 (POP)

(EU) No 528/2012 (biocidal products)

As the case may be, aditional, national legal provisions must be observed.

* 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

[•] Relevant phrases

- H225 Highly flammable liquid and vapour.
- H226 Flammable liquid and vapour.
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H336 May cause drowsiness or dizziness.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H400 Very toxic to aquatic life.
- H411 Toxic to aquatic life with long lasting effects.
- * Department issuing SDS: Department: Quality Assurance
